3. PUBLIC QUESTIONS

- 3.1. All the public questions were on the question of speed restrictions in Five Ashes and were taken during the presentation and discussion on the subject.

4. FIVE ASHES SPEED RESTRICTIONS

- 4.1. MP introduced Michael Oates (MO) and Michael Higgs (MH) to the meeting of the Full Council and invited members of the public from Five Ashes to ask questions on the proposals.
- 4.2. PD prefaced the discussion by drawing attention to the large amount of detailed work carried out by members of the Traffic Committee and East Sussex County Council. The response to suggestions made to ESCC had been very positive and helpful.
- 4.3. RF reported on the petition which had contained the names of 130 people. He had attended the hearing of the petition at East Sussex County Council and had submitted a report.
- 4.4. M Oates opened the discussion by explaining the detailed reasoning behind the current proposals for the 30 mph scheme. These were described on drawing No E Five Ashes/01/503050. The speed bands proposed were 50-30-50 mph.
- 4.5. A discussion and question session with members and Five Ashes residents took place the key issues of which were:
 - Five Ashes residents and members wanted a longer 30 mph restriction which would encompass more of Five Ashes, especially in the area of the A272, where there had been a number of accidents, and in Criers Lane area where there were difficulties.
 - ESCC noted that these suggestions would in some cases contravene Traffic Engineers guidelines and would not be possible.
 - GP read a letter from the Five Ashes Primary School Council which asked for a 30 mph limit throughout the village.
 - There would be a need for enforcement and a greater police presence.
 - ESCC explained that traffic surveys had been carried out in April 2008, November 2005 and November 2003.
 - There was a clear division of opinion between the desire for a long 30 mph zone and the principles of Traffic Engineering where if traffic is slowed down without apparent reason there will be problems.
- 4.6. At the end of the debate, it was agreed that ESCC would examine a further compromise solution, which would include a 40 mph buffer between the 50 mph – 30 mph zones which would enable some more of the resident's 30 mph aspirations to be taken into account. They would report back in due course.

- 4.7. The Chairman thanked the East Sussex County Council representatives for attendance, and for the work carried out on behalf of the community.
- 4.8. It was agreed that the proposed resolution 8C12 would be postponed until a later date.

Annex 1

Letter sent to David Thompson from Nigel Hannam, Director of Corporate Services, WDC dated 4 March 2009

Argos Hill Windmill

With reference to our previous communications in respect of the above, I have heard nothing further from Geoffrey Daughtrey in response to my letter of 11 February, in which I requested a response to the outstanding issues. I therefore feel there is little value in me attending the Mayfield and Five Ashes Parish Council meeting on Monday.

By way of update to the meeting the position is that through to the end November we were progressing the arrangements for, and the items of, a lease for a trust for Argos Hill Windmill. I believed we were close to finalising these arrangements together with agreeing the financial contribution to Wealden District Council (WDC). Ian Simmonds from WDC wrote to Geoffrey Daughtrey on 28 November setting out answers to what we believed were the outstanding issues. Mr Daughtrey is acting on behalf of the Friends of Argos Hill Windmill and other potential trustees.

I contacted Mr Daughtrey by email on 18 December and 20 January, spoke to Mr Daughtrey on the phone on 30 January and wrote to him on 11 February but I have yet to receive any response. We have therefore been unable to progress these issues, conclude the lease arrangements and move to set up a trust.

My letter to Geoffrey Daughtrey of 11 February I stressed again the need for an early response, both to progress the formation of a trust for Argos Hill Windmill and to enable the funding that Wealden District Council (WDC) has set aside to support a trust to be secured. I also highlighted the significant budget pressures faced by WDC over the next three years and beyond and the position that, as a result of these budget pressures, I cannot guarantee the financial support currently being offered by WDC if the formation of a trust does not proceed in the very near future.

As explained in my letter to you on 11 February the lease arrangements proposed minimise the obligations on trustees and although it would be up to potential trustees to agree the trust arrangements I would anticipate that these would result in no personal financial obligations on the trustees. This has been a key point and critical feature of the discussions with the Friends of Argos Hill.

I intend contacting Brian Pike as Chair of the Friends of Argos Hill Windmill to see if he can shed any light on progress as well as continuing to seek a response from Mr Daughtrey.

I will update you further when I have more information. In the meantime please feel free to share the information provided above with your council.
